Reasons for Allowance

1. The present claims are deemed allowable over the references of record for the reasons noted in the interview summary mailed December 21, 2005, namely that both Akiyama et al. and Shukh et al. teach away from using a Co alloy for said non-magnetic intermediate layer and that there is insufficient specificity in the prior art to "pick and choose" a Co alloy material for the intermediate layer when the two references relied upon to teach the soft underlayer structure teach away from the use of such a material.

Furthermore, the Examiner notes that claims 27 – 29 are allowable for the Statement of Allowable Subject Matter in Paragraph 12 of the Office Action mailed December 21, 2005.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
